

**TRUSTED
STRENGTH**

CARL HARR

National Sales Director, LiquidSpring

At LiquidSpring, we're proud to be the suspension system trusted by those who serve on the front lines. For over a decade, we've worked alongside emergency responders to deliver a smarter, more responsive suspension that puts comfort, control, and safety first—for the crew and the patients they serve.

With over 97% of Type 1 ambulances relying on our system, LiquidSpring is the leading choice for upgraded ambulance suspensions. Our technology helps reduce driver fatigue, protects critical equipment, and ensures vehicles perform at their best—especially when every second counts.

We're honored to support the life-saving work of EMS professionals and remain committed to advancing our suspension technology to meet the demands of today's high-stakes rescue environments. **Because when an emergency strikes, your suspension should never be a question.**

LIQUIDSPRING IS DRIVING INNOVATION.

SHORTCUTS

Quality of inputs + mastery of process = constant improvement.

Whatever ride you choose,
THE CHOICE IS LIQUIDSPRING.

RECREATIONAL VEHICLE

ADVENTURE TRUCK

EMS, FIRE & RESCUE

MOBILITY

AN ACTIVE SUSPENSION TO MAXIMIZE EVERY MOMENT

GO, GO, GADGET.

Raise and kneel your vehicle while in motion to reach the perfect position without worry.

WEAR AND TEAR? WHERE?

Keep critical equipment on the road and in service with reduced wear and tear from vibrations.

ONE LESS THING TO THINK ABOUT

LiquidSpring enables drivers and emergency responders to stay focused on the critical work in front of them.

MISSION POSSIBLE

Everyone has a job to do, and LiquidSpring makes that job easier with improved handling, comfort, and control.

HOW DOES IT WORK?

Our 5-link structure is directed by an onboard microprocessor that simultaneously monitors speed, steering, braking, and ride height 1000x per second using a proprietary compressible fluid as the spring mechanism to provide the optimal ride and handling characteristics at all times.

RESPONSIVE RELIABLE REVOLUTIONARY

Because every second—and every shift—matters.

WHY LIQUIDSPRING?

BECAUSE THERE'S NO ROOM FOR ERROR

When every second counts, you can't afford to sacrifice a single one in transit. That's why it's essential to have suspension systems that can handle the demands of emergency operations.

BECAUSE STABLE = SAFER

Our proprietary 5-link system allows rescue vehicles to perform their duties safely and effectively, wherever the call takes them.

BECAUSE SAFETY ISN'T OPTIONAL

LiquidSpring systems reduce road/terrain vibrations, improving ride comfort and reducing the risk of driver and crew fatigue.

BECAUSE YOU KNOW YOUR JOB BEST

LiquidSpring suspension technology is fully customizable, allowing operators to adjust the suspension settings to suit each call.

BECAUSE YOU NEED YOUR FLEET TO LAST

A smoother ride means reduced stress and strain on vehicle components - and rescue vehicles are always ready to perform when they're needed most.
