

CONTROL UNMATCHED
BUILT FOR QUICK RESPONSE

FIRE & RESCUE

LIQUIDSPRING SMARTER. SMOOTHER. SAFER.

Carl Harr

National Sales Director

Built for the Call. Ready for the Climb.

LiquidSpring proudly delivers the most advanced suspension system for today's fire and rescue trucks—including the demanding world of wildland and brush fire fighting. With over 12 years of experience supporting emergency responders, we're committed to enhancing vehicle control, protecting crews and gear, and extending the life of every rig.

Trusted by 97% of Type 1 ambulances and selected by leading OEMs, our suspension is engineered for reliability when it matters most. Whether navigating rough terrain or rushing to a remote call, LiquidSpring helps ensure a smoother, more stable ride—keeping your team focused, safe, and mission-ready.

We're honored to support the life-saving work of First Responders and will continue refining our suspension technology to meet the unique demands of fire and rescue teams across every landscape.

Because when the call comes, there's no time for compromise.

LIQUIDSPRING IS DRIVING INNOVATION.

EMS, FIRE & RESCUE

MOBILITY

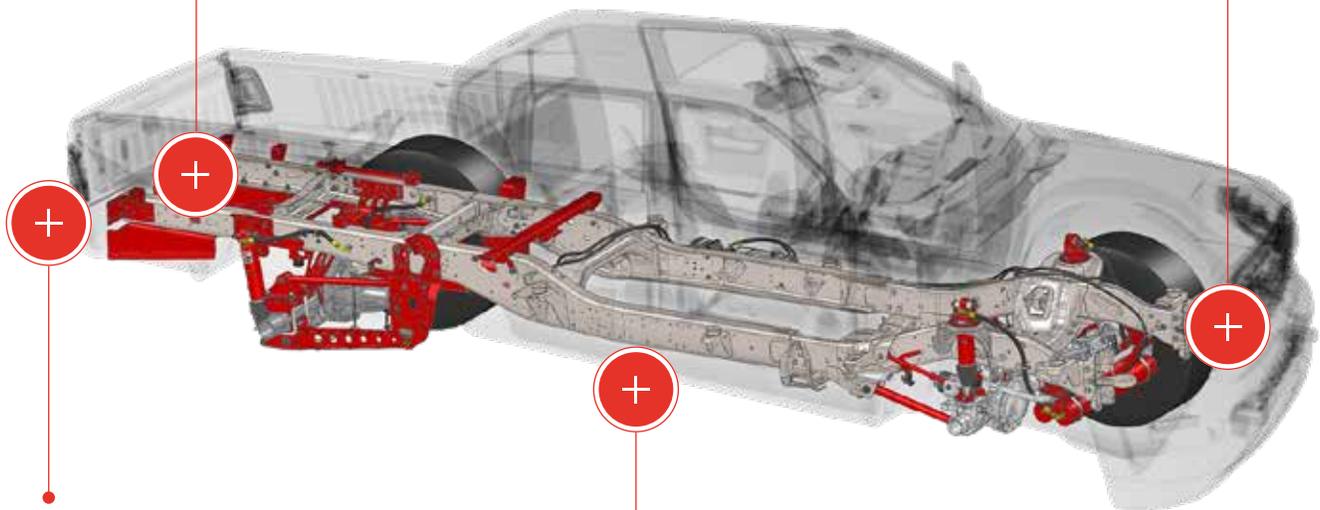

AN ACTIVE SUSPENSION BUILT FOR CONFIDENT RESPONSE

HELLO, MCFLY!

Roads are optional, but a quality ride at any speed, on any surface comes standard.

PUSH YOUR LIMITS, NOT YOUR LUCK.

You can rely on LiquidSpring in any climate, at any altitude, and over any obstacle.

IMPROVISE. ADAPT. OVERCOME.

Raise & kneel your rig while in motion to maneuver your evolving environment.

NO ONE LIKES A CHATTERBOX.

Minimal vibrations = Maximum Lifespan = The Ultimate Brush truck.

HOW DOES IT WORK?

Our 5-link structure is directed by an onboard microprocessor that monitors speed, steering, braking, and ride height one thousand times every second. It is always reading the terrain and reacting in real time. Using our proprietary compressible fluid as the spring mechanism, the system can instantly adjust to washboards, ruts, heavy loads, or quick changes in direction. Your truck stays steady, controlled, and comfortable, no matter if you are hauling gear down the highway or crawling your way into camp. It is a smart suspension built for the pickup owner who wants the freedom to chase any road with confidence.

RESPONSIVE

RELIABLE

REVOLUTIONARY

Because every second—and every shift—matters.

WHY LIQUIDSPRING?

Every call presents unique challenges for you and your crew—how will you meet them with LiquidSpring?

BECAUSE THE UNKNOWN ROAD DEMANDS THE BEST

Rigorous capability and material testing ensures your truck will be able to access and endure any environment.

BECAUSE THE UNEVEN TERRAIN SHOULDN'T SLOW YOU DOWN

Tru-Earth keeps your rig steady on uneven terrain—so your crew can act quickly and safely.

**BECAUSE YOUR TRUCK IS BUILT
DIFFERENT, AND SO ARE WE**

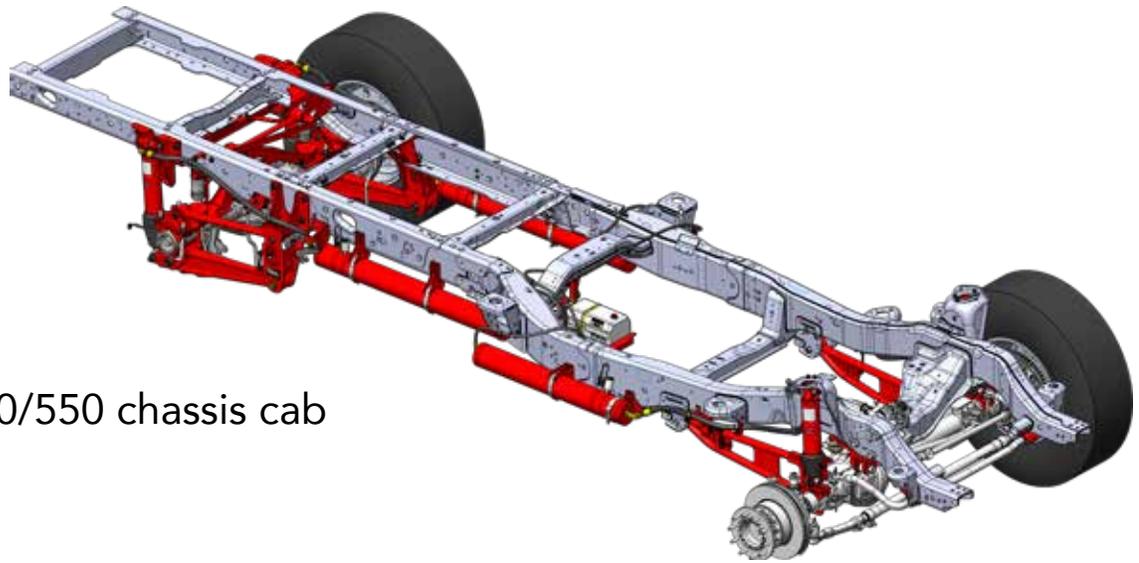

**BECAUSE WHEN
IT'S BUILT RIGHT,
IT PERFORMS RIGHT**

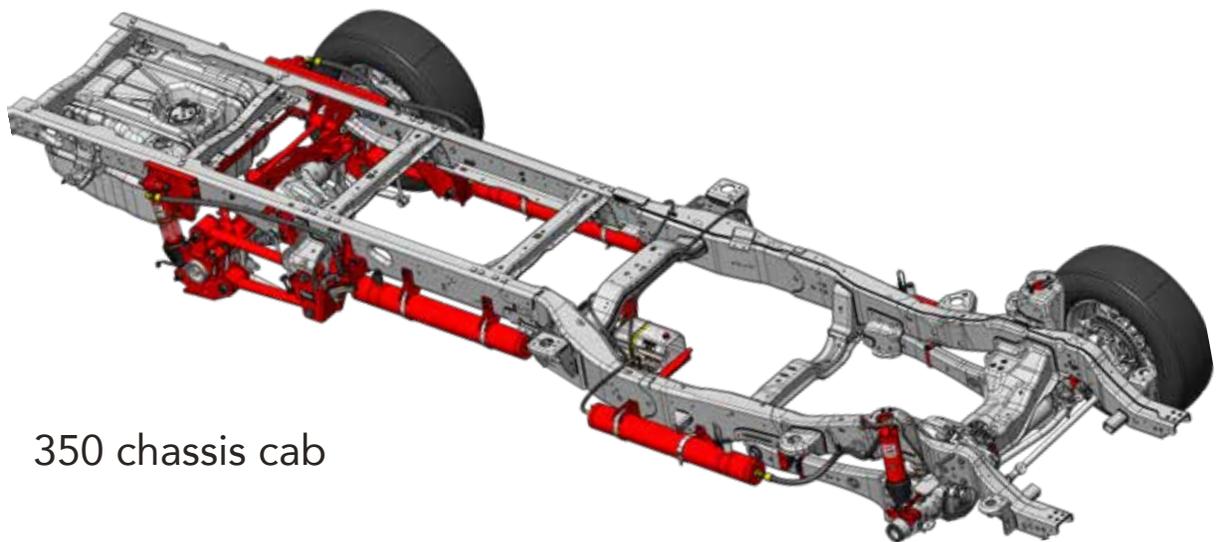

Designed, developed, and distributed using lean manufacturing and Six Sigma process management.

**BECAUSE TOUGH JOBS
DEMAND TOUGHER,
RELIABLE SOLUTION.**

We build strong, reliable suspension systems because the mission demands it.

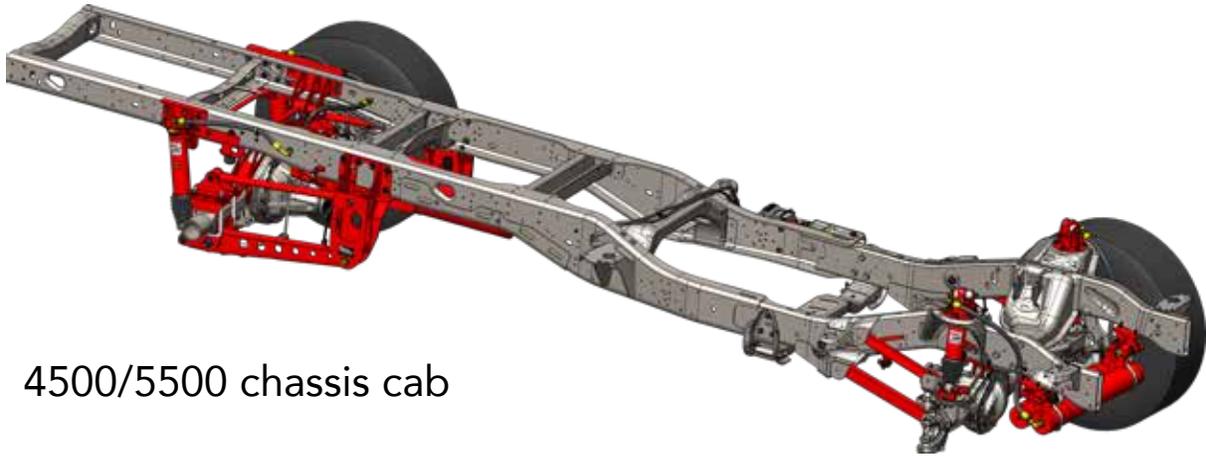

450/550 chassis cab
