

**EFFORTLESSLY
ADVENTUROUS**

WAYNE WELLS

National Product Manager, Recreational Transportation

After over 30 years of working to maximize motorhome performance (18 with Roadmaster), I was pretty sure I had seen everything but the kitchen sink thrown at gassers. The problem is, no matter the amount of time or money spent, a gas motorhome still handled like a box truck and rode rough enough to knock a filling out. Then five years ago I was approached by LiquidSpring.

I often tell people there's nothing I can do to oversell the suspension—within the first 10 seconds of driving, anyone who has been in a leaf-spring motorhome before gets an ear-to-ear grin across their face and they say something along the lines of, "now THIS is different!"

I spent 30 years making the most out of motorhome performance, and I'm proud to say that in the last 5 at LiquidSpring I believe we have perfected it. More than anything, I truly love seeing how thrilled, or relieved, someone is driving one of our coaches for the first time—knowing that I've made someone's RV their forever home on wheels is exactly why I do this!"

LIQUIDSPRING IS DRIVING INNOVATION.
