

ADVENTURE UNLEASHED

MOTORHOME
CLASS A GAS & CLASS C

LIQUIDSPRING IS DRIVING INNOVATION.

Wayne Wells

National Sales Manager - Recreational Vehicles

If you're ready for a smoother, more confident ride in your Class A gas or Super C motorhome, I'd love to introduce you to LiquidSpring. After more than 30 years working to improve motorhome performance—I thought I had seen it all. No matter how much time or money was spent, gas motorhomes still handled like a box truck and rode rough enough to shake the fillings out of your teeth. Then five years ago, I discovered LiquidSpring.

I often tell people there's no way to oversell this suspension. Within the first 10 seconds behind the wheel, anyone familiar with a traditional leaf-spring motorhome breaks into a grin and says something like, "Now THIS is different!" And they're right.

At LiquidSpring, I truly believe we've elevated motorhome performance to a whole new level. More than anything, I love seeing the excitement—or relief—on someone's face when they experience the difference for the first time. Knowing we've helped make their RV feel like a true home on wheels is exactly why I do this.

PATENTS AND COUNTING

Ride confidently with a suspension designed by experienced engineers.

30,000+

VEHICLES EQUIPPED

And we offer best-in-class service for every customer, every time.

100%

OF TYPE 1 AMBULANCES MANUFACTURERS

LiquidSpring is the choice when lives are on the line.

AMERICAN

MANUFACTURING

Fully-integrated headquarters in
Lafayette, IN

0

SHORT CUTS

Quality of inputs + mastery of process
= constant improvement.

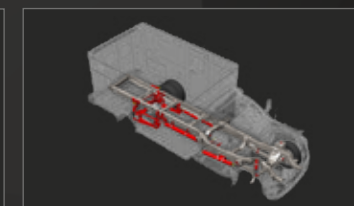

Whatever ride you choose,
THE CHOICE IS LIQUIDSPRING.

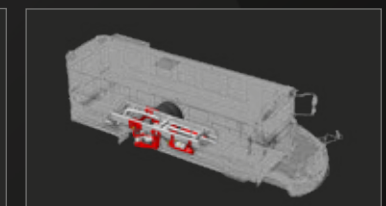

RECREATIONAL VEHICLE

ADVENTURE TRUCK

EMS, FIRE & RESCUE

MOBILITY

AN ACTIVE SUSPENSION TO RELAX YOUR RIDE.

GOOD VIBES ONLY

Eliminate the shake and rattle so you can roll.

COOL IN THE CAPTAIN'S CHAIR

Don't rumble with the road, sit back and enjoy the journey.

NOT EASILY SWAYED

Pushed around by semis and crosswinds? Not you!

RESPONSIVE AND INTUITIVE

Ease into every curve, corner, and lane change with unparalleled handling.

HOW DOES IT WORK?

LiquidSpring's advanced suspension system is designed to give your RV a smoother, more controlled ride. It features a 5-link structure guided by an on-board computer that constantly monitors your vehicle's speed, steering, braking, and ride height. By making adjustments 1,000 times per second, the system uses a special fluid-based spring to deliver the best possible comfort, stability, and handling—whether you're cruising down the highway or navigating rough roads.

COMFORT CONTROL CONFIDENCE

Grab life by the wheel with LiquidSpring!

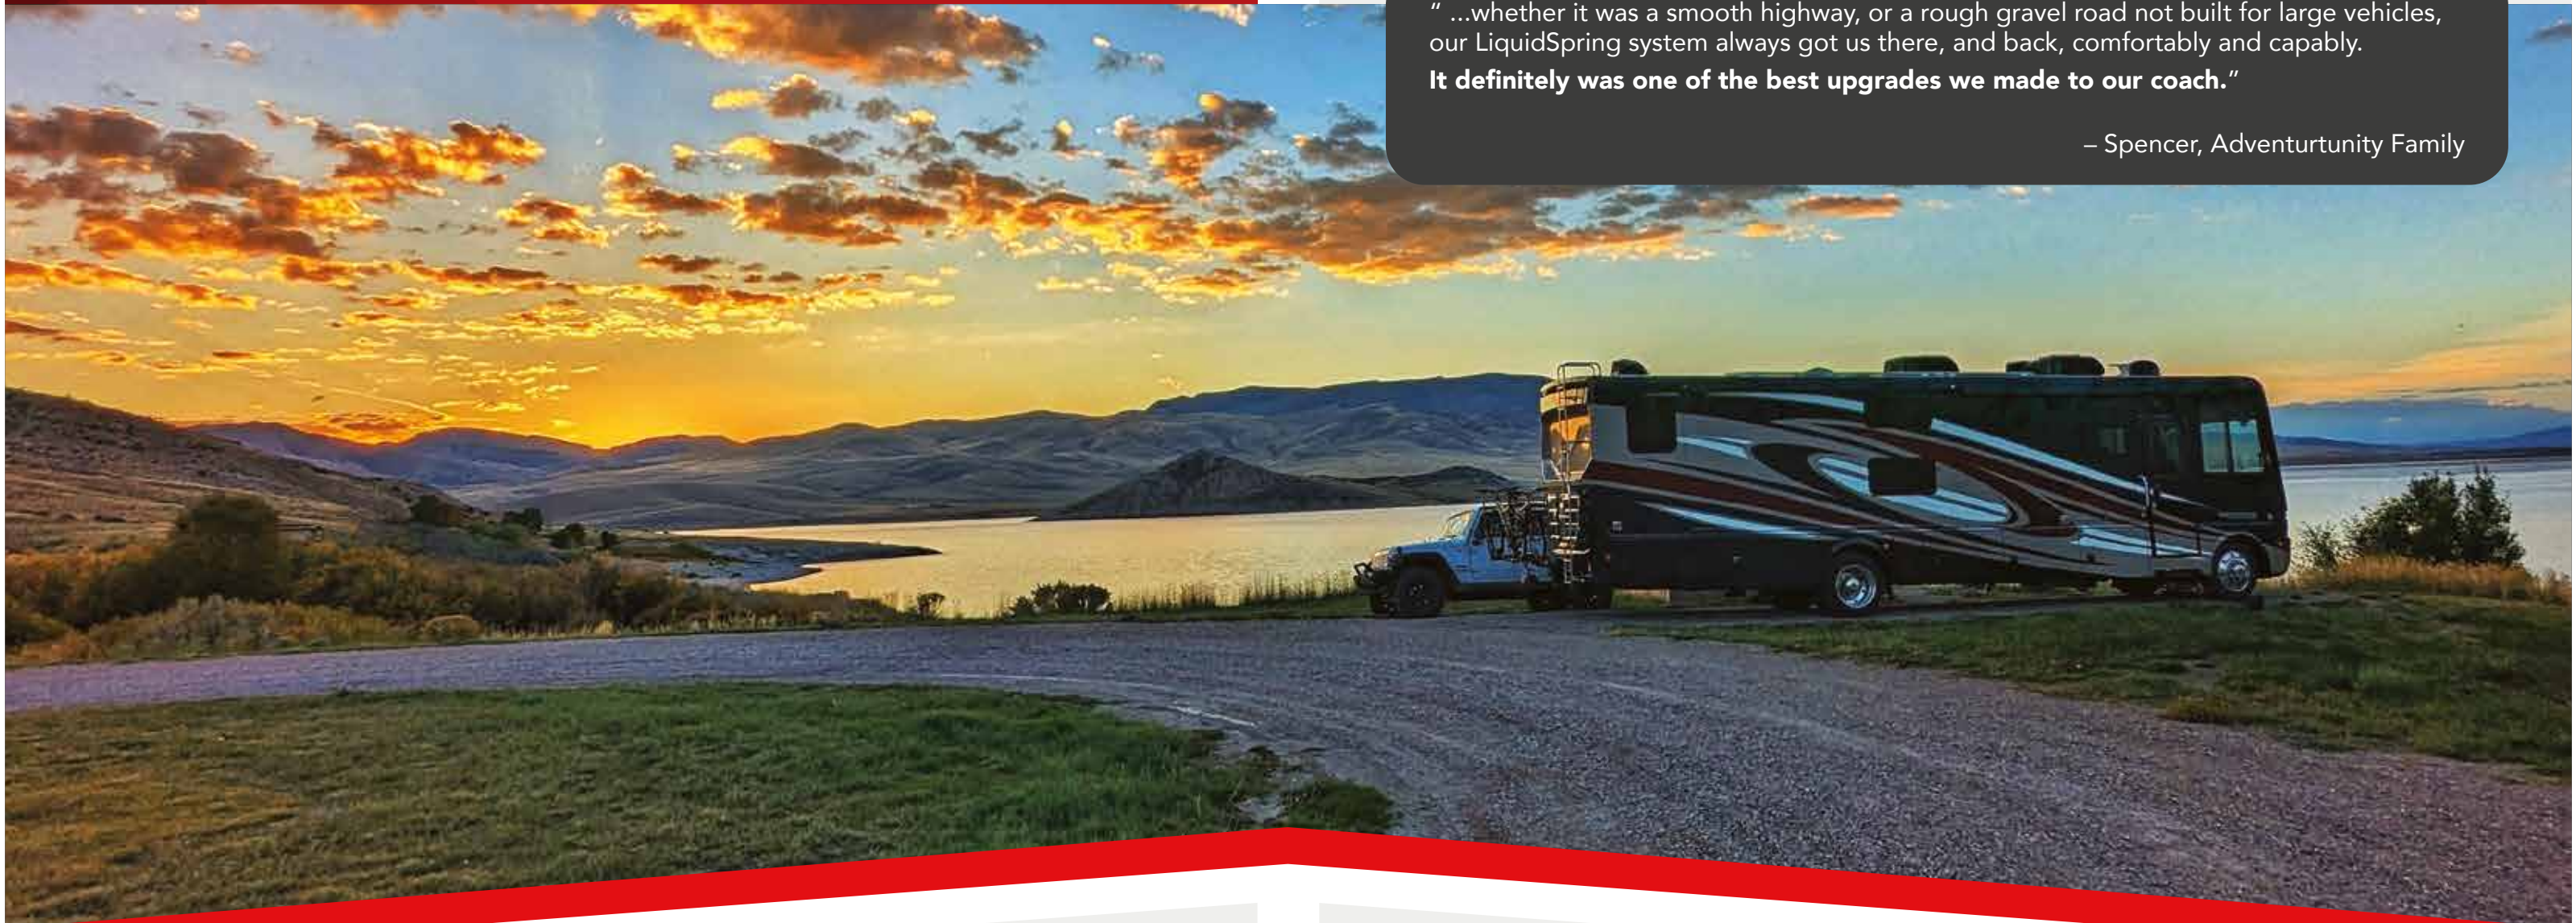

WHY LIQUIDSPRING?

BECAUSE YOU SHOULDN'T COMPROMISE COMFORT, NO MATTER THE ROAD.

"...whether it was a smooth highway, or a rough gravel road not built for large vehicles, our LiquidSpring system always got us there, and back, comfortably and capably.

It definitely was one of the best upgrades we made to our coach."

– Spencer, Adventurtunity Family

BECAUSE THIS SHOULD BE YOUR FOREVER HOME ON WHEELS...

Less than half the average cost per mile for unplanned maintenance, compared to the leading suspension upgrade.

BECAUSE EVERYONE DESERVES TO SIT COMFORTABLY IN THE CAPTAIN'S CHAIR...

More than 50% Reduction in Roll/Sway compared to stock suspension

BECAUSE DRIVING DOESN'T NEED TO FEEL LIKE YOU'RE OUT ON THE OCEAN.

"Rolling has disappeared, bridge joint expansions no longer have the massive jolt followed by 2-3 porpoising moments, vibrations are massively reduced, and **the feel of the coach on the road is a 180 degree turn around.**"

– Ron Pennington

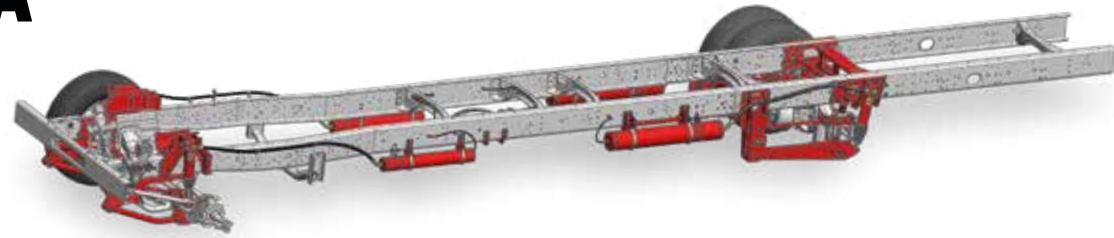

BECAUSE YOU SHOULD HAVE THE ENERGY TO ENJOY YOUR DESTINATION...

"The ride is **much more comfortable** and controlled and the impact with potholes and expansion joints is **so much easier on the motorhome and passengers.** Thanks for a great product!"

– Bill Hicks

"We have owned our Liquid Spring 4 Corner system for over 3 years. It has performed flawlessly and has changed the way we travel. We no longer fight wind, semi-trailers and bad handling associated with the traditional suspension on the F53 chassis."

"Liquid Spring is the single best upgrade we have done to our motorhome!"

– Izzy & MJ, Endless RVing
